ROCK HILL SOUTH CAROLINA POLICE DEPARTMENT

2014 CRIME ANALYSIS REPORT

TABLE OF CONTENTS

CRIME NUMBERS: 8-11

VIOLENT CRIME: 12-33

PROPERTY CRIME: 34-70

DRUG CRIME: 71

CALLS FOR SERVICE: 72-104

ARREST INFO: 105-118

CITATION INFO: 119-128

CHIEF OF POLICE
CHRIS WATTS

CRIME/INTELLIGENCE ANALYST
DAMIEN WILLIAMS

During the calendar year of 2014, the Rock Hill police department worked diligently to initiate proactive policing strategies to prevent crime, continued partnerships with businesses and citizens, investigated cases to make arrests, and responded to citizen calls for service in a timely manner. The crime analysis report details in statistics, maps, charts, and graphs, what occurred in the city of Rock Hill, SC in 2014, from a policing perspective. In 2015, the department will move from 9 to 10 patrol zones to provide better service and community relations. The department will continue to maintain citizen contact thru social media, over the telephone, thru email, and most importantly face to face interaction. The department will continue to use technology to better serve citizens, from an updated records management system in late 2015 to upgrades to current equipment an officer uses on a day to day basis.

CRIME:

HOMICIDE

There were 5 homicides committed in 2014, which is pretty consistent with the past decade in the city. As we say in the department, 1 homicide is too many. There were 2 homicides related to drugs-robbery attempts, 2 that were fights/arguments, and 1 that unfortunately involving a baby shaken that caused brain damage. Homicides are one of the most difficult crimes to predict. Since 2001, our peak months have been May and toward the end of the year (October-December).

ROBBERY

Reported robberies continued their downward trend, with only 80 reported in 2014, the lowest since at least 2001. The department has emphasized focusing on violent crime and gangs in recent years, trying to get ahead of potential crime patterns involving robberies. Robbery victims tend to be younger, 18-20, with males (black and white) most often the victim. Suspects tend to be young too, 17-26 years old, and B/M's were most often the suspect in 2014. Robberies peaked in July and December this past year and from year to year, can have a broad range, some months less than 5, some months more than 15. Robbery hot spots were in the Patriot Pkwy/Riverview area (apartments and motels), and the Eastwood/Cauthen/Annafrel area (residential). Most robberies took place at residential locations (apartments, homes, over 52%). South and east sides of the city saw the most geographically. Some commercial robberies took place, convenience stores, drug stores, some of the places often targeted.

RAPE

Reported rapes were similar in number compared to 2001-2013 averages. Rapes are very difficult for the police department to predict, and most occur between two people that know each other. Very few are stranger or suspect unknown rapes (10.3% in 2014).

AGGRAVATED ASSAULTS

Reported aggravated assaults were up compared to 2013, but are still very low compared to 2001-2013 averages (45-52% decrease). Aggravated assaults can involve everything from violent domestic assaults, to shootings. Again, the violent crimes unit has been tasked with helping the department focus on the most violent offenders and gangs, to help reduce shootings, robberies, and murders. The department uses data, along with information collected by officers to determine where the next violent encounters may occur and between whom. In 2014, guns were used in 88 incidents that we know of. B/M's and B/F's tended to be victimized by assault most often. Aggravated assaults peaked in the summer time and again in November and December. The Triangle and South Central areas saw the most reported incidents with gun assaults being highest in the Triangle, Market Place apartments, the Riverview/Patriot pkwy area, and the East White/Kimbrell St area. The south side of the city had the highest amounts of reported aggravated assaults.

RESIDENTIAL BURGLARY

Reported residential burglaries were consist with the past 2 years, but lower than the long term average from 2001-2013 by about 16-19% (mean/median). Most often, electronics are stolen from home break-in's, such as TV's, laptops, but jewelry is also a sought after item. B/F's tend to be victimized the most when it comes to home break-in's in Rock Hill, and we have seen that for several years. Our suspects like to kick in doors as the most often used method of entry. Suspects tended to be young, 16-24 years old, and were predominately black males. In 2014, the warmer the temperature, the more break-in's. This generally is the trend we see in most years, thought crime patterns/series occur from time to time in winter months. Neighborhoods with the most reported burglaries were South Central by far with 22 and the Triangle area. Central and southern parts of Rock Hill saw the most break-in's overall.

COMMERCIAL BURGLARIES

Commercial burglaries remain at lower levels compared to previous years, with 84 reported, which is 52% less than the 2001-2013 average. Storage buildings are often targeted due to most being less secured than the actual business itself (still classified as a burglary). Suspects in 2014 preferred breaking the front glass of a door, prying at doors. Copper thefts also continued to be popular related to business thefts. Burglary hot spots were churches unfortunately, the downtown area, and Ebenezer rd.

VEHICLE BREAK-IN'S

Vehicle break-ins were up compared to the past 2 years, but still lower than the 2001-2013 averages. Money in purses, wallets were the most sought after item, with laptops, iPods/dvd players on the wish list as well. Victims unfortunately continue to leave high priced items in plain view for criminals to see and steal. 43 guns were also reported stolen from vehicles, a concern for the department. Honda Accords were by far and away the most targeted vehicle type, with F-150's also popular as well. W/F's and W/M's, with twenty-something's victimized the most (20-26 year olds). Vehicle break-in's spiked in January and then again in November. November saw wide spread incidents of unlocked vehicles being broken into in residential neighborhoods throughout the city. East Town, Fewell Park and Spencer Estates had the most vehicle break-ins in 2014, with the Galleria Mall having 13 reported throughout the year, which is lower than previous years. Over 60% of vehicle break-in's occurred at residences. The eastern sections of the city generally see more vehicle break-in's than the western side, proximity to I-77 over the years is a factor in many of the break-in's.

AUTO THEFT

Auto theft dropped considerably in 2014; to below 100 reported crimes (88). Car manufacturers have continued to make it more and more difficult to steal a vehicle. RHPD's current theft problem is older models, mopeds, and motorcycles, the latter two easy to pick up, put in a truck/van and go. B/M's most often had their vehicle stolen. 56% of the thefts occurred at residential locations. The north/northeast side of Rock Hill saw the most thefts in 2014, and that is generally what we see most years, closer to I-77, more likely the theft.

OTHER CRIMES

Reported shoplifting continues to be of concern for RHPD. In 2014, there were 633 incidents of reported shoplifting, comparable to 2013, but up between 20-31% compared to 2001-2013 averages and median numbers. Shoplifting is a difficult crime for the police, as some stores don't report it, and some stores have great loss prevention officers that catch many thieves in the act. The police department supports reporting shoplifting, to continue to arrest repeat offenders due to higher criminal charges for offenders in court. One area lacking is the quality of video surveillance in many stores which needs to be upgraded or better camera positioning for ease of identification. RHPD is part of a regional theft information group that spans the Carolinas in helping to identify suspected criminals in retail establishments.

Credit Card /Debit Card fraud was on the rise in 2014, most reported incidents since 2008. Many of these crimes go unsolved due to lack of information, time lapse of when crime occurred to incident reported, multiple jurisdictions involved in crime, and lack of a physical suspect/location. Often, victims still have their card in their possession, but the number has been stolen, either from a data breach at a store or stolen from being used online. The detectives' work these cases diligently with the banks and the victims, and sometimes, suspects are identified, or taken to federal case levels depending on if it is a group of individuals committing the fraud.

Vandalism was at its lowest levels since at least 2001 which is always a great thing, though periodically the city deals with sprees of BB gun vandalism or mailbox destruction, or more serious damage to businesses/property.

Resisting arrest reports were down around 44-48% less than past years. A few years back, the department relooked at the resisting arrest charge compared with a resisting police city code. Resisting police is a lesser offense, where resisting arrest, the suspect has been placed in custody by the officer and resists most often by attacking the officer, spitting at the officer, or some form of physical aggression.

Peeping Tom incidents were up 100% in 2014, from one person, Travis Cousar. Cousar was involved in multiple incidents early in the spring and was arrested and charged.

The areas with the most drug arrests in 2014 were the Galleria Mall area (often related to other crimes (shoplifting), Riverview/Cherry area, Friedheim/Wilson area, Marion/Saluda area, and the Charlotte/Cherry Rd area.

CALLS FOR SERVICE:

TIME/DAY

Citizen calls in 2014 reached 48,505, a small decrease from 2013, similar to the past 2 years, which showed a sharp increase back in 2011. Calls peak around 4pm during a typical day and stay highest until around 7pm. During the daytime, call hot spots tend to be the mall area, downtown, and the hospital area. During the late afternoon and evening, call hot spots are the Patriot Pkwy area, the mall, and the Saluda/Arch area. After midnight, call hot spots in 2014 were the Patriot Pkwy, Riverview road areas, calls from the hospital, and at the Executive Inn (shut down). However, call patterns are different during the week than Friday thru Sunday. During the week, calls tend to peak earlier in the day, and sharply decline around 8pm. Friday thru Sunday, calls peak a little later in the afternoon and stay high until Midnight. Various factors play into this, businesses open later, people out later/up later at night. Calls generally stay fairly consistent year round, a little higher in the summer, lower in February and November. 2014 was consistent compared to previous years. Some peak citizen call days in 2014 were Friday June 6th (188 calls), Friday September 26th (178 calls) and Friday October 3rd (173 calls). As you may have guessed, Friday had the most calls in 2014 with 7,614. Sunday is the slowest day at 5,973 calls.

LOCATION

As mentioned earlier, the department moved to 10 patrol zones in 2015 (as this report is being written) from 9 patrol zones in 2014, so many of the boundaries have changed. However, generally speaking, in the northern areas of the city, accidents and

alarms are some of the highest call types. Eastern section, shoplifting due to the Dave Lyle commercial corridor. As we head south, disorderly calls become higher on the list. Western side of the city, alarm and accident calls are at the top again as well. Some areas in the city that saw significant decreases in calls this year compared to recent years were South Central, East Town, Stonewall, Arborwood apartments, Hagins/Fewell, Flint Hill, Manchester Village shopping center, Brittany Place and Mallard Pointe apartments. Some areas with an increase were The Galleria shopping center, Riverview motel area, the hospital area, Hutchinson street area, Country Club, and Northeast Plaza shopping center. Priority One calls which are the most serious call types (shooting, assault in progress, etc.) clustered in areas such as Patriot Pkwy/Riverview Motel area, Willowbrook Avenue, Sunset Park and Hagins/Fewell, and Catawba Terrace.

CALL TYPE

The top 10 citizen call types in 2014 made up over 55% of all calls. The top call types were Investigation (general police concern), follow-up (officer following up regarding previous issue), false alarms, disorderly calls, traffic accidents, harassment calls, 9-1-1 hang-ups, suspicious person, larcenies, and noise violations. Disorderly calls were up considerably compared to the past 2 years (24.9%) as well as Domestic (16.2%) and Investigation calls (14.2%). Assault calls were down (15.5%), noise calls down (13.3%) and harassment calls decreased as well (12.6%).

OFFICER-INITIATED

Officer initiated activity was slight down compared to the last 3 years. Officers initiated 31,132 calls, primarily most of which are traffic stops or checking on suspicious persons or vehicles. In 2013, there were 32,326 officer initiated calls, in 2010, 26,852. The highest areas for officer-initiated activity were Heckle/Herlong area (reduce speeding) and the North DDACTS (Data Driven Approach to Crime and Traffic Safety) area of Cherry, Patriot Pkwy and Riverview roads.

ARRESTS:

TIME/DAY

In 2014, RHPD arrested 4,282 people on 5,394 charges, a slight reduction in people, but similar number charges compared with 2009-2013 years. January was the busiest month with 432 people arrested on 559 charges. During an average day, the busiest hours for arrests are Noon and 4pm (peak call time). In 2014, Thursdays and Fridays were our busiest days in the jail. We arrested only 113 juveniles in 2014, the lowest amount since at least 2001.

CHARGE TYPES

Serving bench warrants (court) accounted for 15% of the total arrest charges in 2014. Drug charges were 9.49%, shoplifting 8.57%, simple assault 7.17%, driving under

suspension 6.78% and DUI's 4.59%. We charged 86 people with robbery and 83 people with burglary.

DEMOGRAPHICS

70% of individuals arrested were male, which is similar to most years in the past. White individuals made up 39% of arrests, Black individuals 56%, Hispanic 5% and other individuals about 1%. Black males were 40.3% of those arrested, White males 25.4%, Black females 15.4%, White females 13.5% and so on. Almost 40% of people arrested were in their 20's. 23.6% were in their 30's.

CITATIONS:

TIME/DAY

In 2014, there were 10,063 citations written, down from the past two years, but similar in number to 2011 (10,437) It was the fewest number of citations since 2003. Speeding citations made up 30% of the total, consistent with previous years. The amount of speeding tickets written was the lowest since 2011. The summer months were the busiest months, with citations peaking in June at 1,121. Citations are highest during the Morning and Evening commutes, generally most citations are traffic/vehicle related. Thursdays were the busiest day in 2014 (1,917 citations).

COUNTS/LOCATIONS

Speeding citations topped the list in 2014 with 3,001. Areas focused on for speeding this past year were Heckle Blvd near Forest Oaks apartments and Herlong Avenue due to several tragic deaths over recent years. The department also focused on speeding on Celanese road. Other violations most often cited are seat belts (1,359), driving under suspension (721), and failure to register vehicle (331), shoplifting (314) and possession of marijuana (293). A note, some citations also include an arrest charge as well depending on the crime. Alcohol related citations occurred most often on the north side near Cherry and Riverview roads, the Executive Inn (now closed), downtown, Winthrop area and Heckle/Herlong area. Careless and reckless driving citations occurred most often on Anderson road, Ebenezer/Herlong area, East Main/East White, and South Cherry road. Seat belt citations were most often written around Riverview and Cherry roads, Mt Gallant/Cherry intersection, Willowbrook and Eastwood drive, and the East Main/East White area.

Finally, the department continues to use its data and information collected in ways involving crime reduction, prevention, problem-solving, prediction, and citizen awareness. This report is not only for police employees, but for citizens, so they can be knowledgeable of crime trends in their city. Chief Watts values data which empowers him to make the best decisions possible regarding police presence and resources for his community.

MEAN CENTERS AND STANDARD DEVIATIONS OF PARTICULAR CRIMES
2014

LEVEL OF DISPERSION CAN BE PRESENTED USING STANDARD DEVIATION ELLIPSES. THE SIZE AND SHAPE OF THE ELLIPSE HELP EXPLAIN THE DEGREE OF DISPERSION, AND ITS ALIGNMENT HELPS TO EXPLAIN THE CRIME TYPE'S ORIENTATION. AS YOU CAN SEE ON THE MAP, ALL OF THE ELLIPSES TEND TO ORIENT FROM THE SOUTHWEST TO NORTHEAST. RESIDENTIAL BURGLARIES ARE THE LEAST DISPERSED, CONCENTRATING MORE IN THE CENTRAL PART OF THE CITY WITH A SLIGHT NORTHEASTERN DISPERSION. VEHICLE BREAK-IN'S ARE THE MOST DISPERSED, OCCURRING THROUGHOUT THE CITY IN A MORE WIDER PATTERN WITH A NORTHEAST DISPERSION.

MEAN CENTERS CAN BE USED TO SHOW A GENERAL TENDENCY IN WHERE CERTAIN CRIME OCCURS IN THE CITY. IN THIS MAP, VEHICLE BREAK-IN'S, AUTO THEFTS, AND ROBBERIES TEND TO OCCUR MORE TOWARD THE NORTHEAST AND EASTERN PARTS OF THE CITY. COMMERCIAL BURGLARIES, AGGRAVATED ASSAULTS, AND RESIDENTIAL BURGLARIES TEND TO EFFECT THE CENTRAL AND SOUTHERN SECTIONS OF THE CITY MORE.

BICYCLE	1

EQUIPMENT THAT MAKES DRUGS	1
MEDICAL EQUIPMENT	1
METAL/COPPER	1

VEHICLES MOST OFTEN BROKEN INTO:

HONDA ACCORD- 42
FORD F-150- 19
HONDA CIVIC- 17
CHEVROLET IMPALA- 17
FORD EXPLORER- 17
NISSAN ALTIMA- 16
TOYOTA CAMRY- 11
DODGE R15 TRUCK- 10
FORD F-250- 10

SEX/RACE OF VICTIMS OF VEHICLE BREAK-IN'S

A/F- 1
B/F- 116
B/M- 100
H/F- 9
H/M- 14
W/F- 171
W/M- 164

AGE OF VICTIMS OF VEHICLE BREAK-IN'S (TOP AGES):

20- 24 VICTIMS
24- 24
26- 22
22- 21
25- 20
21- 20
23- 20

2014- VEHICLE BREAK-IN'S PER PATROL ZONE (NEW 10 ZONES)
(UNFOUNDED NOT INCLUDED, CRIMES THAT COULD BE MAPPED)

LARCENY FROM AUTO 2014- LOCATION OF THEFT
CHURCH/SYNAGOGUE/TEMPLE 0.7%

ASIAN/INDIAN/OTHER FEMALE: 12 (0.4%) percentages rounded

AGE BREAKDOWN:
17-19: 308 (9.5%)
20-29: 1287 (39.7%)
30-39: 766 (23.6%)
40-49: 514 (15.8%)
50-59: 289 (8.9%)
60-69: 62 (1.9%)
70-82: 17 (less than 1%)

*Numbers are from date arrested in 2014, **individuals only counted one time (as accurate as possible)**, data as available

NUMBER OF PEOPLE ARRESTED BY YEAR (as of 1/8/15)

*A general order change in February 2009, involving officer discretion, allowed officers to choose to write citations instead of taking subjects into custody on certain offenses. Thus explains the decrease in arrests compared to 2008
