

Box 5.1 Analysis Guide

Independent Variable and Control Variable	Dependent Variable	Analysis {function}	Graphics {function}	Comments
Factors	Factor	Controlled cross-tabulation {xtabC}	Multiple line charts of indicator variable {iplotC} {legend}	Create indicator in non-design dataset, then run svydesign to update the design dataset. Run iplotC on design dataset.
Factors	Numeric	Controlled mean comparisons {imeansC}	Multiple line charts of numeric variable {iplotC} {legend}	Run iplotC on design dataset.
