Box 4.1   Analysis Guide

Independent Variable	Dependent Variable	Analysis {function}	Graphics {function}	Comments
Factor	Factor	Cross-tabulation {xtp}	Line charts of indicator variable {plotmeansC}	Create indicator from one value of the dependent variable. Multiply indicator times 100 to graph percentages.
Factor	Numeric	Mean comparison {compmeans}	Line charts of dependent variable {plotmeansC} Box plots {svyboxplot} Strip charts {stripchart}	Use box plots for weighted or unweighted data. Use strip charts for smaller, unweighted datasets.
