

SCOTTISH SOCIAL ATTITUDES 2014

DOCUMENTATION OF THE BLAISE QUESTIONNAIRE *03.09.2014*

Notes:

1. This is an edited documentation of the Blaise program. Not all variables that appear here are on the SPSS file. Those that are not are marked with a '\$' after the question name. Similarly, not all derived variables that are on the SPSS file are mentioned here (though most are listed in footnotes). See also separate documentation of derived variables.
2. Unless otherwise specified, 'Don't Know' is code 8 (code 98 where there were more than 7 other answer options).
3. Unless otherwise specified, 'Refusal/Not answered' is code 9 (code 99 where there were more than 8 other answer options). Where there is an explicit 'Refusal' code (usually code 7 or 97), then code 9 (or 99) is reserved for 'Not answered' only.
4. Sections in brackets and italics were textfilled as appropriate on the interviewers' computers.
5. Routing instructions appear above the questions. A routing instruction should be considered to stay in force until the next routing instruction.
6. '(NOT ON SCREEN)' means that the question did not appear on the interviewers' or data editors' screens. '(EDIT ONLY)' means it appeared on screen for the editors but not the interviewers – relevant this year? Individual codes marked 'EDIT ONLY' were used by the editors to reclassify 'other' answers, but did not appear on screen for the interviewer or on showcards for respondents.
7. For some questions respondents could give an answer other than one of those listed in the codeframe (these are generally indicated in code frame by the instruction: (WRITE IN). Such answers were recorded verbatim and examined during the editing process to see whether any could be 'back-coded' to one of the existing answer categories. The original open text answers are not available on the SPSS file and have not been detailed within this documentation.
8. The self-complete section is administered as a Computer Assisted Self Interview (CASI). Until 2011 this was done as a pen and paper survey.

¹⁵ Please note, this is different from MarStat5, MarSta2b and MarStat2 in previous years of SSA. The question was reworded to take proper account of civil partnerships in 2009. Although a category for civil partnerships was added to MarStat5 in 2006, the question did not take account of dissolved civil partnerships/being a surviving partner from a civil partnership prior to 2009.
