"SNEEZY" BANDIT ROBBERY SERIES

OVERVIEW:

- ◆ Since March 21, 2010 there have been 6 robberies and 1 attempted robbery occurring at Drug Stores throughout the valley where a female demands oxycontin and oxycodone narcotics.
- ◆ Mesa, Gilbert, Phoenix and Scottsdale, all have reported incidents.

MODUS OPERANDI:

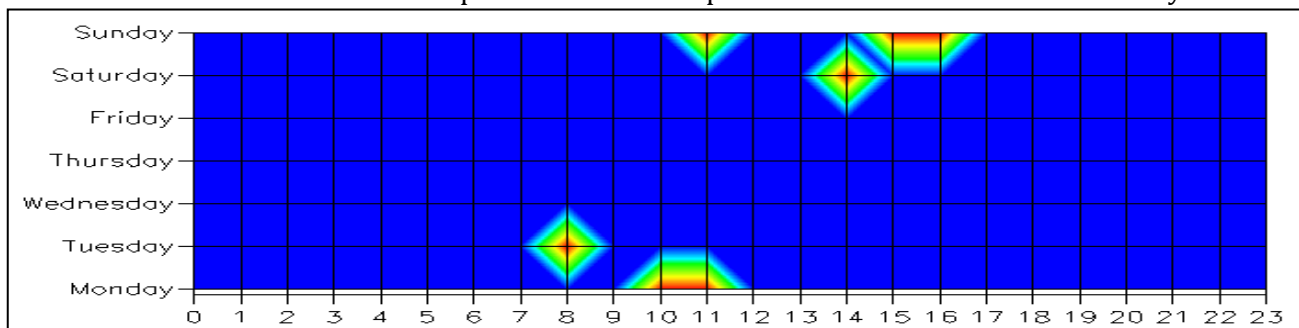

- ◆ The unknown female suspect enters the store during business hours and hands a note to the pharmacist demanding oxycontin and oxycodone in various milligrams and strengths.
- ◆ In all of the incidents, the female suspect holds a cloth, paper towel, or hands to her face consistent with someone who is sneezing or is blowing their nose.
- ◆ In the Gilbert incident, the victim stated the suspect was sneezing frequently and asked about allergies before presenting the demand note.
- ◆ In most of the incidents, the suspect apologizes and mentions that she is being forced to commit the robbery, or that there are armed people in the store to insure compliance. The suspect also requests not to call the police for 5-10 minutes after she leaves. At this time, no other suspects or weapons have been seen on surveillance video.

SUSPECT / INVESTIGATIVE LEAD / VEHICLE INFORMATION:

- ◆ Surveillance photos (see next 2 pages) and witness statements describe the suspect as a W/F, 18-25 years old, 5'5"-5'7", thin build, 100-125lbs, blue or green eyes, blonde hair or brown wig, wearing a black long sleeve shirt (hooded in 2 incidents), black sweatpants, and tennis shoes. In the incident on 06/14 the victim stated the suspect had a red rash on the back of her neck.
- ◆ In the Gilbert incident (DR # 10-xxxx) the suspect was seen entering the rear seat of a Gray Mazda Protégé hatchback driven by a W/M with short hair.
- ◆ A possible accomplice was seen in the Phoenix on 06/14 (DR# 2010xxxx). Based on surveillance photos the accomplice is a W/M, 6'01", 200lbs, with multiple tattoos (see photos on page 3).

TEMPORAL/PREDICTIVE ANALYSIS:

- ◆ Days vary throughout the week from Saturday (1 attempt), Sunday (3 hits), Monday (2 hits), and Tuesday (1 hit). Hours range between 0837-1130 hours (Monday and Tuesday incidents), and 1158-1627 hours (Sunday incidents).
- ◆ The next predicted incident in the series is between **07/03/2010 - 07/19/2010** assuming the suspect continues to operate the same way as in the past.
- ◆ Please see the attached list and map for details of the specific incidents included in this analysis.

INCIDENTS

DR Number	Crime	Date	Day	Time	Days Between Hits	Address of Crime	Address Name	City
