

20 Minus

17	12	16	13	11
19	18	19	18	20
11	14	13	17	16
17	12	16	19	15
13	14	15	18	11

Directions:

1. Roll the 0-9 number generator or spin the 0-9 spinner.
2. Subtract the number you rolled from 20. For example, if you roll a 6, subtract $20-6$ and place your marker on 14.
3. Players alternate turns.
4. The winner is the first player to get 3 in a row, either horizontally, vertically, or diagonally.
