

ACTIVITY IA6.12: How Many More to Make 100?

Intended learning: To use knowledge of partitions of ten in order to partition 100 into two decuples.

Instructional mode: Shorter, rehearsal mode for partners.

- Materials: How Many More to Make 100? Game board, decuple spinner, two types of counters, pencil and paper clip for spinner.

Description: This game is played in a manner similar to IA 4.6, the 9 Plus Game.

Responses, variations and extensions:

- Some children will initially use strategies to calculate the missing addend.
- Base-ten materials and the ENL can be used to provide a scaffold for this activity.
