

Mathematical PowerPoints

PP 10-1 *Circumference of a Circle*

PowerPoint

PowerPoint 10-1, *Circumference of a Circle*, will help learners to establish the 'picture in the mind' that they need so that they can understand *why* the distance all the way round a circle is a little bit more than 3 times the distance straight across the middle.

PP 10-2 *Area of a Circle*

PowerPoint

PowerPoint 10-2, *Area of a Circle*, offers a dynamic image of a circle of beads opening out to form a triangle which can be sheared so that its area can be found.
