

RS 10-1 Cyclic Calendar

Teaching Mathematics Visually and Actively, Chapter 10, Resource Sheet 10-1

Instructions

Copy or print this sheet onto card.
Cut out the three calendar circles and the three pointers.
Attach a pointer to the centre of each calendar circle with a split pin.
Display the three calendar circles on a board or wall, and use them to show the date each day.
Talk about the cyclic nature of years, months, days, hours, minutes and seconds.
