

# Codebook for 2020 Hate Crime Location Dataset

Brian Fogarty

This is the codebook for the 2020 Hate Crime Location dataset (`2020_HateCrime_Location.xlsx`) used in *Quantitative Social Science Data with R: An Introduction* (2nd Edition). Information about the variable values is provided when necessary.<sup>1</sup>

- **Location:** location of hate crime.
- **Total incidents:** total number of hate crimes.
- **Race/ethnicity/ancestry:** hate crimes based on victim's race, ethnicity, and/or ancestry.
- **Religion:** hate crimes based on victim's religion.
- **Sexual orientation:** hate crimes based on victim's sexual orientation.
- **Disability:** hate crimes based on victim's disability.
- **Gender:** hate crimes based on victim's gender.
- **Gender identity:** hate crimes based on victim's gender identity.
- **Multiple-bias incidents:** hate crimes based on two or more biases towards victim (e.g., victim's race and religion).
