

# How Many Dots?

**Intended learning:** to give experience in linking tens and ones with numerals.

**Materials:**

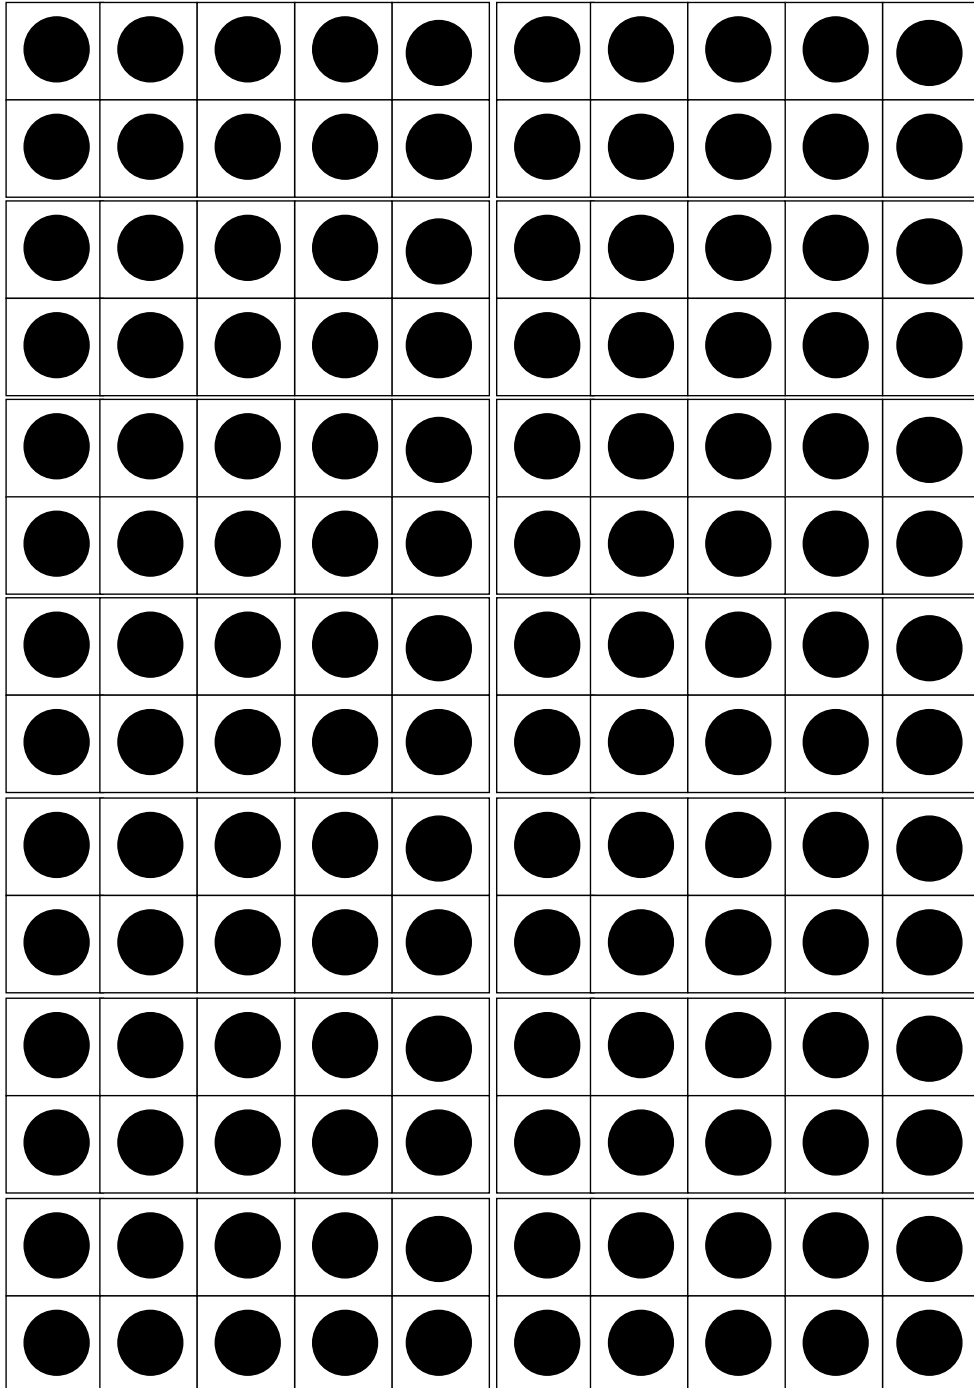

- One set of ten-frames for each child – nine full frames and one set of 1–9.
- A record sheet can be used.

**Description:**

- Teacher calls out a number and children show this number of dots using ten-frames.
- For example, the teacher calls out *Forty-three* and children put out 4 full ten-frames and a partially filled frame with three dots.

**Record sheet:**

Number	Full tens-frames	Number of dots left over
