File Edit View Data Transform Analyze Graphs Utilities Add-ons Window Help

SPSS Data Editor interface showing the Data View tab. The data table displays variables: year, ID, wrkstat, wrkslf, wrkgit, marital, sibs, childs, age, educ, degree, sex, race, educ_4, polviews, and partyid. The first respondent (ID 1) is highlighted, showing they are 22 years old. Callouts provide instructions: 'ID records each respondent's case identification number.' and 'Select Data View or Variable View by clicking one of the tabs.'
