LOCATIONS

Intersection at N 23rd St and W Center St

Within District 3 Beat Area 1, the intersection of N 23rd St and W Center St has been the site of numerous crimes and criminal behaviors.

The vacant lot at the northeast corner of the intersection has been the site of loitering activity. Loitering can be an indicator of future criminal activity. People loitering in areas such as this may be positioned to sell drugs or select victims for other offenses; such as robbery, assault, or theft. Foliage on lots like this can provide cover for contraband; such as guns or drugs.

The corner store, located on the southeast corner of this intersection provides a destination for area residents. Due to increased traffic, criminals in this area have a greater number of targets from which to select a victim.

This was the destination of a homicide victim from an armed robbery-shooting on May 7, 2013. The victim and two associates traveled to this area, called a drug dealer, and waited. The victims, waiting in an auto, were approached and offered drugs for sale. They declined (waiting for their regular contact). A short while later, a suspect produced a gun and demanded valuables. The driver attempted to flee and was shot dead.
