

Sully District Station

RESIDENTIAL BURGLARY

January 1 through June 19, 2014

YTD (through 06/19/14) there have been 41 reported burglaries in the Sully District, **37% more** than during the same time last year. **35 were residential** and six were commercial.

More than half (25) of all burglaries have occurred in PSA 100, representing a 66% increase in just this PSA. All but four were residential.

Seven of the residential burglaries in PA 101 occurred in the **Lee Overlook** and **Madison Ridge** communities; bordered in yellow on the inset map. Most share the following similarities:

- overnight while occupants slept inside
- entry through a rear sliding glass door
- gaming systems, designer shoes, jewelry and one TV

NOTE:

Larcenies from vehicles have also increased in this area (180%). On May 21, a white male with brown hair was observed looking through the front door glass at 2203hrs at **BOLTON RD**.

RECOMMENDATIONS: Increase foot patrols in these two communities between 2200 and 0300hrs. Issue a neighborhood watch alert to residents to report suspicious activity.
