

# IQ Activity Sheet

**Read the article ‘What does IQ really measure?’ and then answer the following questions. (*Be prepared to share your answers with the class*).**

1. What was the Binet-Simon scale intended to be used for?
2. What did Alfred Binet believe about intelligence?
3. What factors could affect a person's score on an IQ test?
4. Why do you think people continue to use IQ tests?
5. Now, answer the question "What are IQ tests?" again. Have your thoughts changed?
