

## **Scenario 12: Explosives Attack—Bombing Using Improvised Explosive Devices<sup>8</sup>**

Casualties: Approximately 100 fatalities; 450 hospitalizations.

### **General Description**

In this scenario, agents of the Universal Adversary (UA) will employ a multiple prong attack to funnel personnel into predetermined locations. Utilizing multiple devices—vehicle bombs, suicide bombers, and man-delivered IEDs—to inflict the greatest number of casualties.

### **Detailed Attack Scenario**

During an event at a large urban entertainment/sports venue, three suicide bombers are strategically pre-positioned inside the arena. The detonation of their devices will instill mass panic and chaotic evacuation of the arena.

Occupants evacuating the arena are most likely to move toward one of several locations. A portion
